

How will it Function?

Our design, and the operating experience and expertise of ASM Global, means that the new venue can move quickly from a 3,500 standing capacity concert one night to an 1,800 seat capacity touring West End musical the next, and from a 2,100 seated comedy show to a business conference or product launch event overnight. Truly something for everyone! And a busy, popular event venue that maximises the benefits for Becketwell, Derby, its businesses and residents.

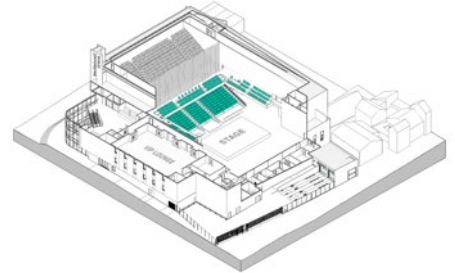

Max seated and standing rock & pop concert mode
